FORWARD-LOOKING STATEMENTS

This presentation includes, and any related discussion may include, forward-looking statements regarding future events or results. All statements other than statements of historical fact may be forward-looking statements, including but not limited to statements regarding the Company's plans or statements of expectation or belief. Forward-looking statements involve risks and uncertainties, which could cause actual results to differ materially from those expressed or implied in the forward-looking statements. Important factors that could cause or contribute to such differences include changes in demand for our products, changes in requirements for our products imposed by our customers or by the third party providers of software and/or platforms that we use, customer concentration, new and changing technologies, customer acceptance and timing of deployment of those technologies, our ability to effectively compete, and the factors discussed in our filings with the Securities and Exchange Commission, including our filings on Forms 10-K and 10-Q. The forward-looking statements contained in this presentation and in any related discussion are made on the basis of the views and assumptions of management regarding future events and business performance as of the date of this presentation, and we do not undertake any obligation to update these statements to reflect events or circumstances occurring after the date of this presentation.
